For safe use of this product, carefully read the following section of this manual and the Precautions section of the instruction manual supplied with the PSP® (PlayStation®Portable) system before use. Retain both this software manual and the instruction manual for future reference.

⚠ **WARNING: PHOTSENSITIVITY/EPILEPSY/SEIZURES**

A very small percentage of individuals may experience epileptic seizures or blackouts when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a screen or when playing video games may trigger epileptic seizures or blackouts in these individuals. These conditions may trigger previously undetected epileptic symptoms or seizures in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition or has had seizures of any kind, consult your physician before playing. **IMMEDIATELY DISCONTINUE** use and consult your physician before resuming gameplay if you or your child experience any of the following health problems or symptoms:

- dizziness
- altered vision
- eye or muscle twitches
- loss of awareness
- disorientation
- seizures
- any involuntary movement or convulsion

RESUME GAMEPLAY ONLY ON APPROVAL OF YOUR PHYSICIAN.

Use and handling of video games to reduce the likelihood of a seizure

- Use in a well-lit area and keep a safe distance from the screen.
- Avoid prolonged use of the PSP® system. Take a 15-minute break during each hour of play.
- Avoid playing when you are tired or need sleep.

Stop using the system immediately if you experience any of the following symptoms: lightheadedness, nausea, or a sensation similar to motion sickness; discomfort or pain in the eyes, ears, hands, arms, or any other part of the body. If the condition persists, consult a doctor.

Do not use while driving or walking. Do not use in airplanes or medical facilities where use is prohibited or restricted. Set the PSP® system's wireless network feature to off when using the PSP® system on trains or in other crowded locations. If used near persons with pacemakers, the signal from the PSP® system's wireless network feature could interfere with the proper operation of the pacemaker.

Use and handling of UMD™

- This disc is PSP® (PlayStation®Portable) format software and is intended for use with the PSP® system only. If the disc is used with other devices, damage to the disc or to the device may result.
- This disc is compatible for use with the PSP® system marked with **FOR SALE AND USE IN U.S. ONLY**.
- Depending on the software, a Memory Stick Duo™ or Memory Stick PRO Duo™ (both sold separately) may be required. Refer to the software manual for full details.
- If paused images are displayed on the screen for an extended period of time, a faint image may be left permanently on the screen.
- Do not leave the disc in direct sunlight, near a heat source, in a car or other places subject to high heat and humidity.
- Do not touch the opening on the rear of the disc (recording surface of the disc; see drawing). Also, do not allow dust, sand, foreign objects or other types of dirt to get on the disc.
- Do not block the opening with paper or tape. Also, do not write on the disc.
- If the opening area does get dirty, wipe gently with a soft cloth.
- To clean the disc, wipe the exterior surface gently with a soft cloth.
- Do not use solvents such as benzine, commercially-available cleaners not intended for CDs, or anti-static spray intended for vinyl LPs as these may damage the disc.
- Do not use cracked or deformed discs or discs that have been repaired with adhesives as these may cause console damage or malfunction.
- SCE will not be held liable for damage resulting from the misuse of discs.

Ejecting the disc

Press the right side of the disc until it is in the position shown in the drawing and then remove it. If excess force is applied this may result in damage to the disc.

Storing the disc

Insert the bottom side of the disc and then press on the top side until it clicks into place. If the disc is not stored properly, this may result in damage to the disc. Store the disc in its case when not in use and keep in a place out of the reach of children. If the disc is left out this may result in warping or other damage to the disc.

Re: Danny Lamb and Leo Kasper

Enclosed are Danny Lamb and Leo Kasper's ID bracelets found discarded after last night's incident. This is the only potentially damaging evidence we have found so far. I trust every possible precaution will be taken to ensure that any records relating to these patients are destroyed.

We are all too aware that both subjects pose a highly serious threat to society, let alone the very existence of 'The Project'. Both patients suffer severe psychotic episodes characterized by intense paranoia, involuntary psychotic reactions, delusional hallucinations and acute schizophrenic disorders.

I know I don't need to mention the severity of the consequences for us and 'The Project' if these patients have escaped.

We HAVE to track them down.

GETTING STARTED

Right side view

Front view

Set up your PSP® (PlayStation®Portable) system according to the instructions in the manual supplied with the system. Turn the system on. The power indicator lights up in green and the home menu is displayed. Press the OPEN latch to open the disc cover. INSERT Manhunt 2 disc with the label facing away from the system, slide until fully inserted and close the disc cover. From the PSP® system's home menu, select the Game icon and then the UMD icon. A thumbnail for the software is displayed. Select the thumbnail and press the × button of the PSP® system to start the software. Follow the on-screen instructions and refer to this manual for information on using the software.

NOTICE: Do not eject a UMD™ while it is playing.

Memory Stick Duo™

Warning! Keep Memory Stick Duo media out of reach of small children, as the media could be swallowed by accident.

To save game settings and progress, insert a Memory Stick Duo into the memory stick slot of your PSP® system. You can load saved game data from the same memory stick or any Memory Stick Duo containing previously saved games.

Behavioral patterns suggesting suitability of experimental candidates

Observation Point 1 (Spanky's)

the successful candidate must show a propensity for violence beyond that of an episodic dyscontrol or intermittent explosive disorder sufferer.

A subject's choice of implement can give deep insight into their potential usefulness to The Project. A psychopathic personality is more likely to select weaponry that will lead to grievous trauma to the victim. A wide range of tools is made available to all potential subjects. Flag any subjects who choose the circular saw or the scythe for further monitoring.

Does the subject make use of the ambient structures in the room? The types we are looking for seem to exhibit more imagination in the dispatch of their victims. The Dentist Chair Cell is ideal for this test - the potential for creative methods of termination are high in that room.

How does the subject's mental state change over the course of the observation? Excitement at the opportunity we present them with seems common to all types, but the successful candidates will exhibit no sense of remorse after they have finished with their victim, and should even go so far as to show signs of anticipation and sustained excitement. Contrast this with unsuccessful subjects, who are likely to either express regret, explicitly or seek some sort of information about the victim, which can be viewed as an implicit internalized expression of regret.

Consultation & Follow-Up

Leo Kasper

REPORT OF CONSULTATION

Opinion and Recommendation:

Predator subjects with the test apparatus reported a 93% success rate in detecting the prey by the sound of his breathing. Predator subjects without test apparatus reported a 17% success rate at detection. Clearly the prey subjects' breathing can be heard even without the apparatus to some extent.

Further Action:

Significant difference between the 2 test groups were found - proceed with further testing of ASS/19.

Suggested test would be to instruct the prey subject to hold his breath whenever one of the predator subjects is in close proximity (watch the bottoms that appear on screen as an enemy appears into your safe zone. If he was successful at holding his breath, would the predators with test apparatus be able to hear his heartbeat?

BEGIN VIDEO ANNOTATION

FIELD TEST

specific sexual acts were prepared for each subject depending on the information gathered in phase 1. Common sexual acts that scored highly across all subjects were identified with a view to creating a database for future use of these conditioning techniques on a larger scale, where live sex acts would be impractical.

The highest scores were acts of bestiality where an animal takes an active role, pederasty involving a deformed older erastes and pre-pubescent eromenos, and coprophilia of any kind. These 3 acts caused the highest levels of self-loathing in the test subjects, with frequent mental breakdowns and emesis during the playback phases. It was noted that the repeat viewing of specific sexual acts that had caused emesis in playback occurred almost instantaneously in the majority of subjects.

Phase 3: Correction

After the successful re-conditioning during phase 2, subjects had all exhibited significant progress. Solid associations had been made in all subjects between the onset of sexual arousal and inhibitory responses from the prefrontal lobes. The final stage of conditioning was to reinforce the inhibition when subjects were presented with images they would usually find sexually attractive. Conventional pornography was used initially, eventually leading to live contact with prostitutes. All test subjects exhibited extensive erectile dysfunction and sexual de-stimulation throughout phase 3. The majority of test subjects exhibited emesis or syncope when presented with a prostitute. Not one subject expressed any sexual arousal during phase 3.

THE TEMPEST

MIRANDA

You have often
Begun to tell me what I am, but stopp'd
And left me to a bootless inquisition.
Concluding 'Stay: not yet.'

PROSPERO

The hour's now come;
The very minute bids thee ope thine ear;
Obey and be attentive. Canst thou remember
A time before we came unto this cell?
I do not think thou canst, for then thou wast not
Out three years old.

MIRANDA

Certainly, sir, I can.

PROSPERO

By what? by any other house or person?
Of any thing the image tell me that
Hath kept with thy remembrance.

MIRANDA

'Tis far off
And rather like a dream than an assurance
That my remembrance warrants. Had I not
Four or five women once that tended me?

PROSPERO

Thou hadst, and more, Miranda. But how is it
That this lives in thy mind? What seest thou else
In the dark backward and abysm of time?
If thou remember'st aught ere thou camest here,
How thou camest here thou mayst.

Except as set forth above, this warranty is in lieu of all other warranties, whether oral or written, express or implied, including any other warranty of merchantability, fitness for a particular purpose or non-infringement, and no other representations or warranties of any kind shall be binding on LICENSOR.

When returning the Software subject to the limited warranty above, please send the original Software only to the LICENSOR address specified below and include: your name and return address; a photocopy of your dated sales receipt; and a brief note describing the defect and the system on which you are running the Software.

In no event will Licensor be liable for special, incidental or consequential damages resulting from possession, use or malfunction of the Software, including damages to property, loss of goodwill, computer failure or malfunction and, to the extent permitted by law, damages for personal injuries, even if Licensor has been advised of the possibility of such damages. LICENSOR's liability shall not exceed the actual price paid for use of the Software. Some states / countries do not allow limitations on how long an implied warranty lasts and/or the exclusion or limitation of incidental or consequential damages, so the above limitations and /or exclusion or limitation of liability may not apply to you. This warranty gives you specific legal rights, and you may have other rights that vary from jurisdiction to jurisdiction.

TERMINATION: This Agreement will terminate automatically if you fail to comply with its terms and conditions. In such event, you must destroy all copies of the Software and all of its component parts. You can also end this Agreement by destroying the Software and all copies and reproductions of the Software and deleting and permanently purging the Software from any client server or computer on which it has been installed.

U.S. GOVERNMENT RESTRICTED RIGHTS: The Software and documentation have been developed entirely at private expense and are provided as "Commercial Computer Software" or "restricted computer software". Use, duplication or disclosure by the U.S. Government or a U.S. Government subcontractor is subject to the restrictions set forth in subparagraph (c)(1)(ii) of the Rights in Technical Data and Computer Software clauses in DFARS 252.227-7013 or as set forth in subparagraph (c)(1) and (2) of the Commercial Computer Software Restricted Rights clauses at FAR 52.227-19, as applicable. The Contractor / Manufacturer is the LICENSOR at the location listed below.

EQUITABLE REMEDIES: You hereby agree that if the terms of this Agreement are not specifically enforced, LICENSOR will be irreparably damaged, and therefore you agree that LICENSOR shall be entitled, without bond, other security, proof of damages, to appropriate equitable remedies with respect any of this Agreement, in addition to any other available remedies.

INDEMNITY: You agree to indemnify, defend and hold LICENSOR, its partners, licensors, affiliates, contractors, officers, directors, employees and agents harmless from all damages, losses and expenses arising directly or indirectly from your acts and omissions to act in using the Software pursuant to the terms of the Agreement.

MISCELLANEOUS: This Agreement represents the complete agreement concerning this license between the parties and supersedes all prior agreements and representations between them. It may be amended only by a writing executed by both parties. If any provision of this Agreement is held to be unenforceable for any reason, such provision shall be reformed only to the extent necessary to make it enforceable and the remaining provisions of this Agreement shall not be affected. This Agreement shall be construed under New York law as such law is applied to agreements between New York residents entered into and to be performed within New York, except as governed by federal law and you consent to the exclusive jurisdiction of the state and federal courts in New York, New York.

If you have any questions concerning this license, you may contact in writing
Rockstar Games 622 Broadway, New York, NY 10012.
